Asha Verma

Email: asha.verma@talnex.test | GitHub: github.com/talnex-fixture
Education: B.Tech in Computer Science, Example Institute of Technology, 2022 - 2026

Projects

TinyTools | Live: https://talnex-honest.vercel.app | Code: https://github.com/talnex-fixture/tinytools
- Added guest sign-in so people can start using the tools without creating an account.
- Built a currency converter between US dollars, euros, pounds and Indian rupees that shows a clear message for an empty, non-numeric or negative amount.
- Added a todo list that is still there after a page reload.
- Improved conversion speed by 40% by caching the exchange rates.

NoteNest | Live: https://notenest-demo.example.invalid | Code: https://github.com/talnex-fixture/notenest
- Built a notes app where users can pin and search notes.

ChatSummarizer | Code: https://github.com/talnex-fixture/chat-summarizer
- Wrote a command line tool that summarises long chat exports into short notes.

Skills: JavaScript, TypeScript, React, Python, SQL, Git
Coding: Codeforces: talnex_fixture_cf | LeetCode: talnex_fixture_lc | CodeChef: talnex_fixture_cc
